"Hangs Together"

Vice Motor Oil apreads out quickly and evenly, forming a thin uniform, scalinght film between extinder walls and platening. Once apread out, the oil "hangs forether" tenaciously in spite of the terrific friction. Vice resists carbonization or seasing up seen in the fierce heat of a swiftly running motor. It shows an expanily high quality in oversy part of some our and a mass in lour grades—a grade for severy matter. Tell your seasons the kind of air you have and she facility in the seasons to have graded it, and he will tell you what grade of Vars to use.

# WHAT CHIROPRACTIC AID HAS DONE FOR ME

After suffering intold agony for the past three years, even going through a sovere operation withent results and then finally forced to hed for the past three months and given up as a hopeless case with HEART TROUBLE, in feet so had that it was necessary to keep my chest packed with fee in order to keep me alive and a disease so many claim is incurable, identified to call a chiropractor and can now honestly state that had it not been for the timely aid of Dr. J. B. Hendersen, chiropractor of Price. Utah, I would not be on earth today, but instead I began to improve from the first treatment and in three days was able to get out of bed and sit up for a short time. After two weeks treatments, I was able to be about the vard and in, three weeks time I was able to call at his office, where I had to climb a flight of stairs unsassisted and which I could do with little extra effort, to get my treatments.

As yet I am not a well woman, but feel about 60 per cent of it and will be 100 per cent well or cured in the near future. My advice to anyone who is suffering, regardless of how great or small the allment may be, is not to try everything else as I did, but instead, the minute you need a doctor, call Dr. J. B. Henderson, chiropractor of Frice, Utah, as I am positive that he will at least help you as he has me when all others failed.

As you I shall write that it was Dr. Henderson, with office in the

Again, I gladly state that it was Dr. Handerson, with office in the Dolden Rule Hotel at Price. Utah, who saved my life and trust that unyone is need of a doctor will take my advise and call a chiropractor.
